

## **Control Panel Builder**

### **About Intlvac:**

Intlvac Thin Film ([www.intlvacthinfilm.ca](http://www.intlvacthinfilm.ca)) is a high tech industrial manufacturing company based in Halton Hills (Georgetown), Ontario.

Intlvac is currently seeking a panel builder to support our design and manufacturing team.

If you have hands-on experience and are looking to expand your technical career, this unique opportunity may be for you. Intlvac is a world leader with a team that includes top scientific researchers, software programmers, mechanical and electrical engineers. Salary commensurate with experience.

### **Summary:**

The primary responsibilities of a successful candidate will be system control panel assembly, wiring, and cabling. Some mild metal fabrication may also be required. A keen sense of quality and workmanship and the desire to improve and learn are paramount attributes.

### **Responsibilities:**

Responsibilities include but are not limited to the following:

- ☑ Read and understand basic electrical circuits
- ☑ Electrical panel wiring and machine assembly
- ☑ Physically able to install large panels into control cabinets and racks.
- ☑ Cable routing and pinning-out D-sub and other multi-pin control connectors.
- ☑ Three phase power wiring
- ☑ Soldering
- ☑ Other duties as assigned

### **Required Skills and Experience:**

- ☑ 2 years experience building and wiring electrical panels for industrial machinery
- ☑ Completion of a 2 yr. Electrical Technician Diploma or Industrial Electrician 442A is an asset
- ☑ Applications will only be considered from those eligible to work in Canada

**Job Type and Location:** Full-time; Halton Hills (Georgetown), Ontario

### **How to Apply:**

Interested applicants are asked to forward their cover letter and resume to: [intlvacjobs@intlvac.com](mailto:intlvacjobs@intlvac.com). Only applications submitted directly to this email will be considered for the position.
